Mailing Addresses

You are invited to attend the Nuclear Materials Management and Safeguards System (NMMSS) 2010 Users and Training Meeting sponsored by the Department of Energy (DOE) and the Nuclear Regulatory Commission (NRC). The meeting will be held in Las Vegas, NV, May 19-20, 2010. We have an exciting meeting planned with focus on up-to-date developments, system training and orientation. There will be time for an exchange of ideas, lessons learned, and to find creative solutions to address our common challenges.

The following URL is the meeting announcement which provides information on meeting registration and hotel accommodations:

<http://www.hss.doe.gov/nmmss/2010nmmss/>

Or visit the HSS webpage at [hss.doe.gov/NMMSS](http://hss.doe.gov/NMMSS), 2010 Workshop Registration to access the link.

Please make your reservations as early as possible.

D-2, D-3 and D-15 Directories are being produced and will be available at the Users meeting and by request.

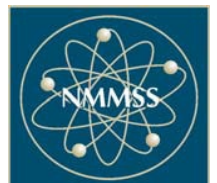

### NMMSS Training Course for NRC Licensees

NMMSS training for NRC Licensees is being planned for October 19, 20, and 21, 2010, at DOE Headquarters, in Germantown, MD. This course is designed for individuals with limited experience in NRC reporting requirements and is based on NUREG/BR-006, Rev. 7 and NUREG/BR-007, Rev. 6. The following topics, among others, will be included:

- Completion of data forms: transactions, inventory and material balance
- Inventory reconciliation
- Foreign Obligations reporting
- Report Products

The desired class size is 10 or less. A minimum of 6 will be required to conduct the class. You may register for the class by contacting John Ballard at 301-903-0092, or by email at [John.Ballard@hq.doe.gov](mailto:John.Ballard@hq.doe.gov). Be sure to include your name, job title, facility name, address, telephone number and email address. There is no cost for this course.

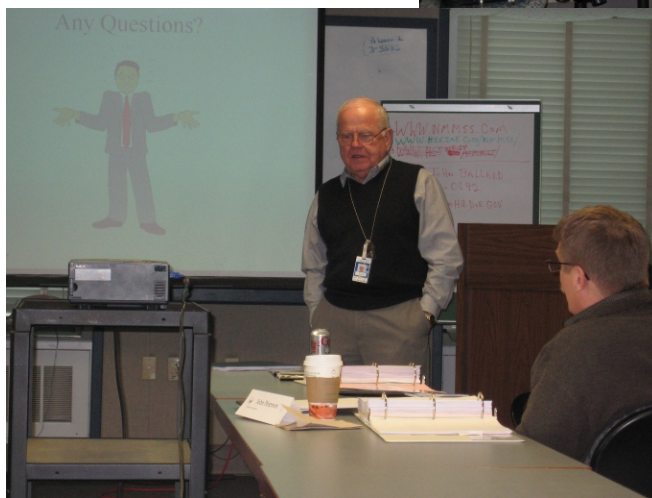

***If interested, please respond by August 1, 2010***

### Ron Bonifay Retires

"My sincere thanks goes out to the NMMSS community for making my job such a manageable experience. Your cooperation and support is greatly appreciated. It only seems like yesterday, that I first began reporting data and reconciling inventories with NMMSS in 1982, while employed by the Mound Facility at Miamisburg, OH. Subsequent to retiring from Mound, I accepted a position with NMMSS in Atlanta GA in 1998, as an analyst. In 2001, I accepted the position of the NMMSS Project Engineer. During that time, I was involved in implementing many changes in reporting requirements. It has been both challenging and rewarding to see the continuing success of the NMMSS over the past 28 years.

I have extremely enjoyed sharing my knowledge and experience with the NMMSS users and especially conducting the annual training classes. I will be leaving NMMSS with mixed emotions. I'm excited about retirement, but will deeply miss the amiable relationships I have established over the years. It is without a doubt that the NMMSS will continue to be a successful organization in serving you and the sponsors."

**IMPORTANT:** The "DO NOT X-RAY" marking does not prevent incoming packages from being sanitized. Please package CDs in cardboard rather than plastic casings. The plastic is heated by the sanitization machine, thereby warping the disk. There is less chance of this occurring if the data is packaged in cardboard.
